DETAILED ACTION

Response to Arguments

Applicant's arguments, see the amendment, filed November 24th, 2004, with respect to claims 1 and 22 have been fully considered and are persuasive. The rejection of these claims has been withdrawn.

Examiner's Reasons for Allowance

Claims 1-40 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance:

As to claim 1, the prior art of record, taken alone or in combination, fails to disclose or render obvious a method for collecting optical data for use in time resolved optical imaging of an animal comprising directionally propagating through free-space optics a pulsed light beam of a selected intensity to illuminate at one or more wavelengths a plurality of predetermined illumination points in a region of interest of the animal, measuring at one or more wavelengths, the collected light at a detector to produce a timed resolved optical signal for one or more illumination points/collection points configuration, wherein light emanating from points other than the predetermined collection points is optically excluded from detection, in combination with the rest of the limitations of claim 1.

As to claim 22, the prior art of record, taken alone or in combination, fails to disclose or render obvious a system for collecting optical data for use in time resolved optical imaging of an animal comprising illuminating optic components for directionally propagating the beam through free space optics such that a region of interest of the biological tissue is illuminated at a plurality of illumination points thereby injecting light into the animal, collecting optic components for collecting through free space optics light re-emitted at a plurality of predetermined collection points in the region of interest such that light emanating from points other than the predetermined collection points is optically excluded from detection, and for directionally propagating, through free space optics, the collected light, in combination with the rest of the limitations of claim 22.
